

# FUTURE GENERATIONS DESERVE BETTER

**Matthew (Matt) Hook is an independent minded businessman who is tired of politicians who represent special interests and not the people.**

Matt retired as a Senior Partner with Centerfield Capital Partners where he invested in numerous companies in various industries throughout the United States. In addition, Matt was an attorney for 11 years and a CPA for eight years. Matt and his wife Jody have lived in Indiana's 5th District for the past 25 years where they raised their four children.

**If you want a data driven independent decision maker concerned for future generations that does not accept special interest money, I would greatly appreciate your consideration.**

## REPUBLICAN MATT HOOK STANDS FOR:

### LOWERING HEALTHCARE COSTS

**He will stop special interest handouts and exorbitant charges by healthcare providers.**

The healthcare industry makes political donations of \$250 million per year for special interest laws resulting in higher drug costs and charges for procedures in excess of 20 times what Medicare pays.

### REDUCING TRILLION DOLLAR ANNUAL DEFICITS

**He will eliminate wasteful spending and tax breaks that benefit the richest 5% of Americans.**

90% of benefits from capital gains disproportionately benefits 5% of the richest Americans who should pay the same tax rates as the average wage earner, to help us avoid future financial crises and bankrupting our children.

### ADDRESSING CLIMATE CHANGE, NOW

**He will get rid of \$40 billion in subsidies to the fossil fuel industry and invest in clean energy technologies.**

Climate change is impacting our health, agriculture and security by causing increases in respiratory and infectious diseases, droughts and national disasters. We must ensure a safe and healthy future for our children.

### REDUCING MINDLESS DEATHS BY FIREARMS

**He supports the International Association of Chiefs of Police approach to firearm safety.**

Requiring universal background checks for all gun purchases and stopping production of semi automatic assault weapons is a common sense approach to protecting our children, innocent citizens, and the 2nd amendment.
